University of Evansville | Evansville, IN

- Concentration in Finance and Global Business; GPA 3.72/4.0, Magna Cum Laude, Dean's List (five terms)

Relevant Experience

Reykjavik Energy | Reykjavik, Iceland

Summer 2024 – September 2026

Accountant. Supported day to day financial operations within the corporate accounting department, managing invoice processing, vendor reconciliations, and workflow improvements across multiple enterprise resource planning platforms.

- Processed and reconciled 100+ supplier invoices weekly, verifying consistency against purchasing documentation to maintain accurate financial records.
- Redesigned internal Business Central workflows and page configurations, streamlining invoice processing and improving day to day efficiency for the accounting team.
- Served as primary point of contact for internal departments and external suppliers, resolving invoice and payment discrepancies to keep accounts payable on schedule.
- Worked hands on across Business Central, Microsoft Dynamics 365 F&O, and Unit4, using Excel extensively for reconciliations, reporting, and ad hoc financial analysis.

Veitur EHF | Reykjavik, Iceland

Summers 2020 – 2023

Group Leader. Led a team maintaining properties for a large national utility company, overseeing daily task assignment, quality control, and on site safety compliance.

- Led a team of 5 to 6 employees maintaining properties held by a large national utility company, overseeing daily task assignment and quality control.
- Ensured productivity and safety compliance across all team members and job sites.
- Delivered landscaping services and inspected utility equipment to confirm proper functioning.

Additional Experience

University of Evansville, Lead Forward Program & Academic Coach | Evansville, IN

Fall 2024 – Spring 2025

Relevant Projects

Independent Portfolio Analytics Project | Boston, MA

2024 – Present

- Built SQL and MySQL databases to organize large scale portfolio and equity datasets for independent research and analysis.
- Designed Tableau dashboards applying a structured multi factor framework to evaluate companies and portfolios.
